

Special events are held for Fall Festival and Lighting of the Greens at Christmas, plus other runs too.

See our Facebook page or Gibsonville Town web page for details on schedules and themes.

Train operations are weather dependent:

1. Wet = not running (shocking and rusting)
2. Hot (over 82 F) = not running (burn up motors and operators)
3. Windy = not running (blow off tracks)

See you soon in Gibsonville North Carolina!
